

SA63-4 SMALL APERTURE® SERIES

6.5" 3-WAY FULL-RANGE - IN-WALL OR CEILING - 3" OPENING

Size	26 h x 11 w x 3.4 d (in) 660 h x 279.5 w x 86 d (mm)
Freq Response	40Hz-22kHz±3dB
Impedance	4 ohms
Sensitivity	87dB 2.83V /1m
Power req.	25-50W
Woofer	(1) 6.5" (165 mm) Aluminum
Mid	(1) 2" (50 mm) Aluminum
Tweeter	(1) 0.75" (19 mm) Aluminum
Finishes	See Trim Kit Options

- (1) 6.5" (165 mm) High Excursion Aluminum Woofer**
- (1) 2" Aluminum Midrange**
- (1) 0.75" (19mm) Aluminum Dome Tweeter**

Unlike anything you have seen or heard, James Loudspeaker has raised industry standards once again. The James seamless Small Aperture in-ceiling/in-wall speakers have a very small 3" round or 3" x 3" square sound aperture yet pack in a full 3-way system for deep bass and wide frequency response. A seamless edge detail keeps them looking smart and modern yet discrete. The system includes a mini PowerPipe 6.5" subwoofer, 2" midrange and 3/4" dome tweeter for wide 40Hz to 22kHz response. Having a real subwoofer also allows the system to play at loud levels. Deep bass and high SPL from such a small visible opening causes a second take!

All aircraft grade aluminum construction and a modular design provide long life and easy service, while installer configurable protection offers the utmost reliability. The SA63-4 has a larger foot print than other SA models but is less than 4" deep and best suited for an in-wall or shallow-ceiling application. The SA series is designed to also accept industry standard lighting trim kits to allow integration with similar styled lighting products.

Order woofer assembly, mid-range module and grille kits separately.

Square Option

Round Option

Spacer Ring

Retro-fit designed with drop-ceiling in mind.

Sheetrock application with additional spacer shown.

Wood fit designed for flush mount applications.
